

Ultra PRO™ Multi-Range DNA Markers

Crisp and Precise, Direct Load DNA Markers in 5 Different Ranges

Product Highlights

- 5 Markers: 100 bp, 1kb ladder, low, high and broad ranges
- Crisp and precise bands without any contaminant nucleic acids
- Stable at ambient temperature
- Long shelf life of 2 years at room temperature
- Ready-to-use formulated with bromo-phenol blue
- All markers have 0.5 ml volume to load 100 applications
- Each lot is tested in agarose gel electrophoresis

Product Details

NRL DNA Ladder contains discrete DNA fragments ranging in size from 100 bp to 10,000 bp. These marker are ideal for the size determination of digested DNA, intact DNA and plasmid DNA. These markers are optimized for direct loading on gels ranging from 2.5 to 10 µl per lane. NRL DNA markers are formulated to run accurately and to provide crisp band patterns. These markers require no additional preparation and contain bromo-phenol blue for ease of use. All markers are supplied at a concentration of 0.1 mg/ml

Ordering Information

Catalog #	Product Description	Price, \$
DNA-M-100	Ultra PRO™ 100 bp Ladder DNA Markers	99.00
DNA-M-1KB	Ultra PRO™ 1 Kb Ladder DNA Markers	99.00
DNA-M-LR	Ultra PRO™ Low Range DNA Markers	99.00
DNA-M-HR	Ultra PRO™ High Range DNA Markers	99.00
DNA-M-BR	Ultra PRO™ Broad Range DNA Markers	99.00
